SPIRITED STEED IN FAST MATCH RACE

"Red Hussar" and "Quickstep" Run on a Handsome Wager.

A match race for \$50 a side has been arranged for to-morrow afternoon at Deep Run Hunt Club track between Mr. Blanchard Forbes's "Quickstep" and Mr. Ormond Young's "Red Hussar."

"Quickstep" lately defeated Mr. John Thomas Anderson's "Bohemian Joe" in a match race of two miles.

The race to-morrow will be at one mile, weight for age. Mr. Forbes will ride his mare and Mr. T. C. Jenner will make the mount on "Red Hussar."

An interesting fact is that both the mare and gelding are by the well known horse, "Guardman."

There has been a considerable friendly feeling of rivalry between the owners for some time, and the match is the result of a wager made in the Commonwealth Club last night.

The public is invited to witness the event.

and there is no doubt but that a number of the sporting element will be on hand.

For the Plaintiff.

In the City Circuit Court yesterday in the suit of Jerome Taylor, Jr., receiver vs. Noel & Binford, the jury returned a verdict of \$4,423.12 for the plaintiff.

The litigation grew out of the sale of some tonka beans, used in the manufacture of tobacco, by the defendants to the plaintiff.

A motion to set aside the verdict was overruled, and exceptions noted.

The Bijou Comedy Company, long known here as the old Bijou Comedy Company, which comes to the Casino next week in "The Knickerbocker Girl" for the first half of the week, and "The Little Son of Mr. R. E. Garnett" for the second half.

Every record ever made by any attraction at the Casino has been equaled and a new pace set by the Bijou Comedy Company. With Little Chimp and Mary Marble at the helm, everything glides along with a regularity and ease that is new to the Casino. "The Knickerbocker Girl" or in the musical numbers, specialties and whatever else the company has in store for the cast are known to be popular. Of course, Little Chimp and Mary Marble are the centers of attraction and of almost immediate relief. In fact, I have never known it to fail. I repeat I want the public to give this soap a thorough test, and am positive they will agree with me that it is the best toilet soap ever made. I wish to emphasize the statement I have so often made, that SOAP IS A MEDICINE. That more or less of the ingredients get into the system through the pores, and that the blood carries these ingredients to every part of the body. Soap either benefits or injures the human system. The use of all soaps made from common fats and dangerous alkalis should be avoided. My soap is made from pure vegetable oils and is the special duty of our committee.

"I was, however, at a previous meeting, when we accepted the offer of Mr. Sloan of ten cents per cubic yard for sand dumped into what is now known as Sloan's Basin."

President Oppenheimer, of Board of Health, Declares That Richmond is Cleaner.

Dr. W. T. Oppenheimer, president of the Board of Health, was enthusiastic last night in speaking of the excellent record made by the city in its death rate for the past five months.

When asked to what he attributed the greatly reduced rate, Dr. Oppenheimer said: "I attribute the decrease in Richmond's death rate to the quarantine we have made against the contagious diseases that prevail here as well as in every city. We are doing all in our power to improve sanitary conditions and the more we succeed in this direction, the less the death rate will be. The milk and food inspectors have been very earnest and active in their duties and their efforts have doubtless done much to bring about the new order of things."

The streets, alleys and public places are being well cleaned and the sewerage is being looked after. More than this, contagious diseases are being carefully reported and consequently we have been able to confine contagion."

"The total number of deaths in the first five months of 1904 were 835, while for the same period there have been only 721, a decrease in the death rate of 114."

To Think Well Means SUCCESS

Healthy Brains ARE MADE BY GRAPE-NUTS

It was stated in The Times-Dispatch yesterday that, pending the pumping of the sand into Mr. Sloan's basin, which would require nearly two months, there was no insurance on the plant.

This was a mistake, and the statement should have been that the basins during that time, were without liability insurance. As a matter of fact, the dredge was insured by Messrs. Thomas L. Alfriend and Ben for \$24,000. Companies competing for the liability insurance

STATEMENT OF MR. E. T. D. MYERS

Gives His Version of the Sloan Sand Contract.

FOR CITY'S BEST INTERESTS

Believes Committee So Acted, and He Would Vote Same Way Again.

The more the matter of the sand contract between the James River Improvement Committee and Mr. James T. Sloan is agitated, the more clearly it seems to be demonstrated that there was no wrong in the transaction, but that the controversy has arisen solely and simply out of a difference of opinion between the City Engineer and members of the committee as to what should be the city's policy on the subject.

Mr. E. T. D. Myers, Jr., a member of the James River Improvement Committee from the Chamber of Commerce, was seen last night in regard to the selling of sand, and in response to inquiry, made the following statement:

"Owing to a more important engagement, I was unable to be present at the meeting of the James River Improvement Committee at which Colonel Cuthaw entered his protest against the selling of sand."

"I was, however, at a previous meeting, when we accepted the offer of Mr. Sloan of ten cents per cubic yard for sand dumped into what is now known as Sloan's Basin."

Of Trifling Value.

"From this meeting Colonel Cuthaw was absent and was represented by his assistant, Captain P. St. J. Wilson. He informed the committee that Colonel Cuthaw was opposed to the selling of sand, and in response to inquiry, made the following statement:

"Owing to a more important engagement, I was unable to be present at the meeting of the James River Improvement Committee at which Colonel Cuthaw entered his protest against the selling of sand."

"I was, however, at a previous meeting, when we accepted the offer of Mr. Sloan of ten cents per cubic yard for sand dumped into what is now known as Sloan's Basin."

Would Do It Again.

"Mr. Sloan made us an offer of six cents per yard. We made a counter proposition of ten cents a yard, as well as I remember, on my own motion, and Mr. Sloan accepted it."

Assistant Engineer Wilson then explained that it was not convenient to dump into Mr. Sloan's basin until the large dumping ground, then very nearly full, was completely emptied. Mr. Sloan had any basin prepared. It struck me, therefore, as being plain to the interest of the city to prevent the ill-effects of the dredge and its crew while waiting for a basin, to bargain with Mr. Sloan at once, without waiting for the advertising for bids or the necessary preparation by any other contractor for the receipt of the sand."

"At this particular time the Sloan Basin was empty, the gas works dumping ground unprepared to receive material, and the large Lester Street dumping ground nearly full. There was no other ground prepared to receive the output of the dredge. To prepare required an interval of time. No other contractor than Mr. Sloan had any basin prepared. It struck me, therefore, as being plain to the interest of the city to prevent the ill-effects of the dredge and its crew while waiting for a basin, to bargain with Mr. Sloan at once, without waiting for the advertising for bids or the necessary preparation by any other contractor for the receipt of the sand."

"I do not possess thorough knowledge of the local ordinances, but wish to state that unless the action of the committee on this occasion was in violation of them, I would repeat my same action under the same circumstances."

"I think, therefore, the committee was to the best interest of the harbor in particular and the city in general."

First Consideration.

"I may be pardoned for saying that no member of the committee has taken more interest in the industrial filling of the low grounds and low streets by the spoil from the dredge, than I have. The suggestion to make this fill came from me originally."

"I have always looked upon the problem from the point of view that the James River Committee was seeking a way to get rid of the material excavated from the river bottom, and was to be congratulated whenever they could make this material useful either by selling it or by subjecting it to overflooding or selling such sand as was fit for building purposes."

Very Small Matter.

"In my view, our problem is not primarily to build up streets but to excavate the harbor of heavy deposits of sand and mud brought into it with each succeeding freshet. Inasmuch as I believe, we will be able to have built up all available ground, there is no harm in selling sand."

"It is with much regret that I am forced to make so lengthy a statement about what is, in my opinion, a very small matter, and indeed, that I am almost indifferent as to whether the sand is sold or not, but I am forced into print by the frequent use of the word 'accidental' in the News Leader and welcome the opportunity you have given me to make this statement."

"I am sorry that I do not agree with the City Engineer in this matter as our relations have been most cordial, and I am amazed that his warning to the committee the selling of sand might lead to 'accidental' has been so 'sensationalized' as to put our committee in a false and bad light."

Would Bid Much Higher.

The Messrs. Goddin, who operate a sand business up by the Tredgar, are not at all pleased at the awarding of the contract to Mr. Sloan, and the senior member of the firm declared last night that he would have put in a bid at certainly as high as fifteen cents, had he been informed of time of the meeting."

He said he had requested that notice of the time of meeting be given him, but that he was not informed, and I am sure that Mr. Sloan's committee would be very glad to have him make a bid.

"On the other hand, Mr. Sloan makes a flat denial of all that has been said against him, and courts a thorough investigation."

Here is what he says: "I have no desire to keep the matter of awarding the sand contract before the public or to prolong the controversy, but I am willing to court the fullest investigation, but I must say that the statements reported to have been made by Messrs. Goddin and Thomas, so far as they refer to me, are wholly without foundation."

As to Insurance.

It was stated in The Times-Dispatch yesterday that, pending the pumping of the sand into Mr. Sloan's basin, which would require nearly two months, there was no insurance on the plant.

This was a mistake, and the statement should have been that the basins during that time, were without liability insurance. As a matter of fact, the dredge was insured by Messrs. Thomas L. Alfriend and Ben for \$24,000. Companies competing for the liability insurance

R. T. ADAMS, Manager.

Simply a Designation.

Editor of The Times-Dispatch:

Sir—In yesterday issue of your paper the special committee relative to Hon. George W. Mason's speech on the 6th, Judge Mann was referred to as "the prohibition candidate." The correspondent and not the speaker, and probably two days, if any contest for the nominations ensues. It is conceded that a citizen of this city will be the nominee for Governor by acclamation, Judge L. L. Lewis being the man, and it would be appropriate to name him as the man who would meet in this city.

If an effort is to be made to secure the convention for this city, it must be made at the meeting of the committee to be made 22d. The convention for this city must be held at the meeting of the committee to be made 22d. The convention for this city must be held at the meeting of the committee to be made 22d.

A State chairman is to be elected for the ensuing three years. Mr. C. B. Sloop is the present chairman, but the one chosen by the State Committee to succeed Hon. Park Agnew, elected at Norfolk last summer, but who subsequently resigned. The new organization will control the convention and 40 per cent. of its membership will be from outside of Virginia. It would prefer the near or city of Richmond to Norfolk.

Mr. O'Grady Will Run.

Friends and admirers of Mr. James M. O'Grady called on him last evening and urged him to accept the nomination for the aspirant for justice of peace in Marshall ward. It was said last night that he had accepted of the post. The fellow who would prefer the near or city of Richmond to Norfolk.

SEVENTIETH REGIMENT MAY CAMP NEAR LYNCHBURG

LYNCHBURG, Va., June 8.—Colonel George Wayne Anderson, of the Seventieth Regiment, has inquired of Captain R. B. Craighill, of the Lynchburg Home Guard, whether there is no place in Lynchburg upon which his regiment could hold an encampment between August 10th and September 10th.

There are several plots of land here which would be available for the purpose if facilities for water could be provided. Captain Craighill will probably investigate the question thoroughly before reporting to the headquarters.
